#129026
Tear and Tape #138995
Glue Dots #103683
Aqua Painter #103954
Stampin Scrub #126200 and Stampin Mist #102394

CARD STOCK AND DESIGNER PAPER:

Rose Red #102544 (Or Berry Burst)	4-1/4 x 11, score and fold at 5-1/2 – card base
Crumb Cake #120953	3-1/2 x 4-3/4 – mat for art piece
Watercolor Paper #122959	3-1/2 x 4-3/4 – art piece
Scrap of watercolor paper for small flower.	- small flower
Scrap of Cardstock to create a stencil	3-1/2 x 4-3/4 – peek-a-boo stencil to stamp through (see video)

DIRECTIONS:

1. Stamp the floral image onto the watercolor paper with the Archival Basic Black Ink. When dry, paint with the aqua painter and the inkpads.
2. Stamp the single flower image on the scrap of watercolor paper, paint it and cut it out.
3. Create a peek-a-boo stencil using the scrap of cardstock and the largest of the Ovals in the Stitched Shapes Framelits.

4. Place the oval over the floral image so that most of the right side is showing and the left is protected, Ink the lace stamp in Crumb Cake – stamp off once and then stamp over the floral image, through the peek-a-boo in the stencil you created.
5. Without reinking, stamp the bottom corners of the art piece.
6. Re-ink, stamp off twice and stamp the top two corners.
TIP – this stamping off technique is called Generation stamping, first, second and third, is the number of times you stamp without reinking. (back in the day, it was just called stamping off).
7. Stamp the sentiment in black ink to the right of the floral image.
8. Use the adhesive to attach the art piece to the mat – offsetting it slightly.
9. Use the other small floral stamp and the Berry Burst ink to stamp around the outside edge of the card base.
TIP – this is called the “wallpaper background technique “and it creates great background interest for your card.
10. Attach the art pieces to the card base.
11. Add a piece of Tear and Tape across the bottom of the art piece – up about 1 inch.
12. Push the crinkle seam binding into the tape, making small loops with your fingers as you work across the card.
13. Place three glue dots across the crinkle ribbon you just put down and add the piece of lace trim over the ribbon.
14. Use a glue dot to attach a two inch piece of gold mini sequin trim
15. Use another glue dot to attach the little flower you painted and cut out.
16. Clean stamps with the Stampin Scrub and Mist.

NOTE – *In the image, you may notice Linen Thread. I folded a piece in half, created a bow, and stuck it on before the flower. I had gifts going into the envelopes with the cards, and the additional height of the knot would have pushed the parcels into the “expensive mailing” category so I removed it – but it’s a very pretty addition if you don’t have to worry about postage costs.*

Happy Stamping
