Heat Tool
Ranger Anti-Static Pouch,
Score Pal Mini
Tim Holtz Guillotine Paper Cutter
Brutus Monroe bottle cap sequins

Simon Says Foam Tape
Glue Dots
liquid glue
White Embossing Powder
Teflon Bone Folder
Absorber – stamp cleaner

CARD STOCK AND DESIGNER PAPER:

Simon Says Stamp Peacock Teal

Neenah Solar White 80#
Ranger Watercolor paper
Vellum

5-1/2 x 8-1/2, score and fold at 4-1/4 – card base
2 x 3 - sentiment
4 x 5-1/4 – mat
3-7/8 x 5-1/8 – card front
3 x 3 – butterfly
Scrap for small sentiment

DIRECTIONS:

- Create a watercolor wash on the card front using the Hero Arts Liquid Watercolor
- Once the paper is dry, stamp the background stamp with the VersaMark Ink, cover with white embossing powder; shake off the excess and heat set.
- While the heat tool is still warm, stamp the butterfly onto the larger piece of vellum, and white heat emboss it as well along with the sentiment.

TIP – when heat-embossing vellum make sure the heat tool is hot before you point it at the vellum. It will cook the embossing powder faster, with less change of the vellum curling or burning.

- Use the Scor tape to attach the card front to the mat and then to the card base.
- Heat emboss the sentiment onto the smaller piece of Peacock card stock and die cut with the smallest die.
- Attach the sentiment to the card front with foam tape.
- Attach the smaller vellum sentiment with glue dots folded and placed under the writing to hide them.
- Fussy cut out the vellum butterfly and use a couple of glue dots under his body to attach him to the top right of the card front.
- Use liquid glue to attach a few bottle cap sequins over the card front.
- Use the Absorber to clean the stamps

Happy Stamping

Here are the supplies used. Where available I use **Compensated Affiliate Links**, which means if you make a purchase through my link, I receive a small commission at no extra cost to you. Thank you so very much for your support, I truly appreciate it.
