3. Heat up the Spellbinders Glimmer Foil Machine.
4. Place the “Merry and Christmas” plates face up on the hot plate and warm it up.
5. Cut a piece of copper foil the size of the sentiment and place it “good side down” on top of the sentiment followed by the card, face down to emboss the foil in the top left corner

7. Once the plate is heated, undock and run it through the Spellbinders Platinum Die cutting machine (going back and forth a couple of times SLOWLY will help transfer the foil).
8. Gently remove the top plate and peel back the foil to reveal the foiled/embossed image.
9. Use the die cutting machine to cut the tree, the deer and the bunnies.
10. Using a scrap from the deer copper paper, place it under the star the bird is holding at the top of the tree, and run it through again to get the copper star.
11. Use Foam tape to attach all the pieces to the card front.
12. Use the white glue to attach the copper star to the bird at the top of the tree
13. Add a few copper sequins around the card to balance out the copper in the image.
