DIRECTIONS:

1. Place the card front into the Misti and lightly stamp the leaf image in black.
   **TIP** – DO NOT take the stamp off the Misti – you will be stamping again.
2. Use the colored pencils to color the image.
   **TIP** – coloring before you emboss allows you to color right out to the edge of the image without the halo you get from coloring after you emboss.
3. Place the card front back into the Misti. This time ink the stamp in VersaMark Ink and Black heat emboss over the image. This adds great outline and detail over the edge of your work and really makes it pop.
4. Place one of the other stamps in the set into the Misti and stamp in black ink for a little “background noise”.
5. Take the card front out of the Misti, lay it on a protected work surface and splatter it with diluted White Winsor & Newton Gouache. Then add 5 drops with Nuvo Crystal Drops in Ebony Black.
6. While the card front is drying, place the small black cardstock into the Misti, stamp the sentiment in VersaMark Ink and white Heat emboss it.
7. Repeat with the purple card stock and the smaller sentiment.
8. Wrap the Burlap Twine around the dried card front three times. Tying the knot where the sentiment will cover it.
9. Add foam tape to the back of both sentiments and attach them to the card front.
10. Add foam tape to the back of the card front and attach it to the card base.
11. Clean the stamp with the stamp scrubber.

Happy Stamping
