Neenah Solar White 80#
White
Black

7 x 10" score and fold at 5" – card base
4-1/2 x 6-1/2 – card front
5-1/2 x 8-1/2 – stamp color and cut out art pieces
2-1/2 x 3 – shadow for sentiment
2-1/2 x 3 - sentiment

DIRECTIONS:

1. Place the 80# white card stock into the Misti Stamping Tool and use the black ink to stamp the images.
 2. Color the images with the Copics.
 3. For the flower, I used a small amount of the YR18 (Orangy yellow), at each end of each petal and blended it in with the yellows. This adds great highlights to the tip and center of your flower.
 4. For the Cone center, I did short flicks with each of the colors
 5. Place the stencil over the card front and use the palette knife to add the Glitz Glitter evenly over the space.
- TIP** – CLEAN your knife and stencil immediately – this glitz glitter is like glue when it sets.
6. Set the card front aside to dry for at least 20 – 25 minutes (Depends on where you live and the temp).
 7. Fussy cut out the flowers, leaves and stems or use the coordinating dies.
 8. There are some white spots showing between the petals right beside the flower center. Use the BG07 Copic Marker to fill those in to make it look like the background peeking through.
 9. Add small pieces of foam tape on the back of all the pieces.
 10. Die cut both pieces of the sentiment and use the white glue to layer them and then add foam tape to the back.
 11. Use foam tape to attach the card front to the card base.
 12. Attach the flower heads then the stems and leaves
 13. Finally, add the sentiment.
 14. Clean the stamp with the stamp scrubber.

Happy Stamping
