CARD STOCK AND DESIGNER PAPER:

White Cardstock (Hammermill)

4-1/4” x 11” score and fold at 5-1/2” – card base
4-1/4” x 5-1/2” (4) – leaves and card front

DIRECTIONS:

1. Start by cutting a piece of cardstock into quarters 4 x 4-1/4” x 5-1/2”. Set one aside and using a Misti, stamp the leaf image on each of the other 3 in VersaMark Ink, cover with gold embossing powder, shake off the excess and heat set.
2. Next, use the coordinating stencils to color in the leaves with Pinkfresh Ink colors: Ocean Breeze? Aquamarine/Mermaid Cove/Tidal Pond. The stencils are numbered in the top left corner of each to assist you with placement and I started with the lightest color at #1 working my way to the darkest.
3. Then, rub the images with a dry towel to remove any ink sitting on top of the embossing and then die cut with the coordinating die.
4. Finally, place inside a SPLAT BOX, and spatter with gold and white paint

CREATING THE BACKGROUND FOR THE CARD:

5. Start by placing the Geo Blocks Hot Foil plate onto the base platform of your die cutting machine. Then, spritz the 4th piece of white cardstock you cut at 4-1/4" x 5-1/2" with water and lay it on top of the plate.
6. Next, place a silicone impression pad over this with a cutting pad and run through the die cutting machine. (Note the sandwich for this may differ for your machine). This will emboss the card front with the design on the hot foil plate.
7. Next, attach the card front to a top folding A2 sized card base. 4-1/4" x 11" score and fold at 5 -1/2".
8. Then, use foam squares to attach the color leaf pieces randomly around the card front cutting off any overhang.
9. Finally, add a gold embossed sentiment from the Foiled Sentiment 3 kit and embellish with Pinkfresh Studio glitter drops in Aqua (these are really blingy).
